Subject: Re: EPA Contact

Chad, I would suggest you start the conversation with Bill Chism. I have attached Bill on the email.

Bill, I am still trying to get industry on board regarding the hooded row middle labels for XtendiMax, Engenia and Enlist Duo which I had thought would be simple. BASF has a few questions for EPA thus I am providing Chad your email address; Monsanto may be following with questions as well? Will try to hunt down Dow tomorrow (Friday). You and Tommy let me know if I need to assist in any way. As always, I want to thank each of you for continually supporting our growers as we strive to steward all pesticides.

Regards,
Stanley

Subject: EPA Contact

Dr. Culpepper,

Who is your EPA contact? Tommy spoke with our dicamba regulatory manager but we had questions about what the EPA would say. Knowing the contact at EPA would help us understand their perspective. We can turn around a 24c very quickly.

Thanks,
Chad

Chad Asmus
